

Please do not enact the proposed changes in the rules regarding Low Power FM stations. I do not want the possibility that my local K-LOVE station, 94.3, could be replaced by an LPFM station that does not support family values. K-LOVE keeps me informed of local and national events. The music, prayer and news that is presented on this station unites the local Christian community one to another. It also unites us with the Christian community nationwide. It is vital that strong, family-focused stations such as K-LOVE stay on the air (instead of being replaced by LPFM stations) so that the local families in each broadcasting community are supported and strengthened. Strong families within the local community promote law and order and strengthen the local economy. K-LOVE, 94.3 supports my family values and has a positive and encouraging impact on our family.
